

Introduction to HREC Fundamentals

A three-part online training module on human research ethics for ethics committee members and ethics support staff, researchers and those looking to become an HREC reviewer. Exclusive to the staff and partner organisations of Sydney Health Partners and Maridulu Budyari Gumat. The course is designed to assist understanding of the very important role the ethics review process plays in ensuring that research is well designed and conducted with due regard to the rights and safety of research participants.

Our reviewers have said:

“All three modules were very helpful. Required reading, additional reading, and videos made learning easy.”

“After completing this course I understand my role and responsibilities as an ethics committee member.”

“The relationship between good clinical practice, the National Statement and the role of the TGA is clear to me now.”

“After completing this course I could confidently review human ethics applications.”
