EMAIL: [hossai.gul@uts.edu.au](mailto:hossai.gul@uts.edu.au)  
OTHER: <https://www.linkedin.com/in/hossai-gul/>

*Hossai Gul is a transdisciplinary (TD) implementation scientist and practitioner, specialising in leading TD teams to implement evidence-based innovations into practice within complex systems. Hossai has worked within the Australian health and medical sector for over 12 years in health services, biomedical research, and health system and implementation science research. Hossai has a Bachelor of Advanced Science, an Honours by thesis in cancer drug discovery, a Master of Research by thesis in bioinformatic analysis, and a PhD in Implementation Science and Complexity Science. She is currently a Lecturer and Head of Implementation Lab at TD School, University of Technology Sydney.*

## SKILLSET:

- Adaptation
- Barriers and facilitators/Context
- Strategy design and analysis
- Dissemination
- Evaluation
- Frameworks/models/theories
- Complex systems approach to implementation
- Transdisciplinary approach to implementation
- Implementation practice

## AREAS OF EXPERTISE:

- Education
- Genomics/precision medicine
- Health systems/services
- Neurological
- Rare disease and conditions
- Renal
- Palliative
- Policy
- Public Health
- Agnostic to health domain

## SETTINGS:

- Acute Care
- Chronic Care
- Hospital
- Outpatients
- Community
- Cross sector
